

Uninterruptible Power Supply | Nominal current: 600 VA | 300 W | Number of sockets: 3 | Protective Contact

General information

With the Nedis® Compact UPS 600 VA, you are no longer afraid of losing all your files and work during power outages. This Compact UPS 600 VA, provides up to 8 minutes of battery to a connected desktop PC and gives you enough time to save your work and close all your programs. The UPS features a sound alarm when the power goes down and the battery starts working. The USP can connect three devices up to a power load of 300 watts and is equipped with three safety plug sockets. This makes it also possible to connect next to your computer also audio/video devices or a security system to the UPS. Furthermore, the UPS switches off automatically at overload and discharging or other possible risks. Due to the compact size of the UPS, it is easy to place near your computer.

Specifications

Colour:	Black
Power source type:	Mains Powered
Input voltage:	220 - 240 V AC 50/60 Hz
Number of batteries:	1 pcs
Power cable length:	1.45 m
Output power:	300 W
Power plug:	Type F (CEE 7/7)
LCD display:	No
Technology:	Sealed Lead Acid
Device power output connection(s):	CEE 7/7
Device power input connection(s):	CEE 7/7
Socket type:	Protective Contact
Power cable side B:	Fixed
Power cable side A:	CEE 7/7
Output voltage:	230 VAC
Height:	166 mm
Number of sockets:	3
Battery recharging time:	480 min
Maximum battery life:	11 min
Width:	161 mm
Nominal current:	600 VA
Depth:	160 mm
Weight:	2450 g
Input current:	3.5 A
