

Jelly Case for Samsung Galaxy Note 10 Plus | Transparent

General information

Protect your smartphone with this super-thin high-quality back case.

A small raised edge provides space between your screen and the surface to help prevent damage to your screen.

This Jelly Case is made of TPU which highly protect your phone without any damage. TPU covers are considered as the best form of defense and protection from collision now a day.

Features

- Protects from scratches and minor bumps
- Back hole for camera and flash
- Full access to connections and controls
