

Car FM Transmitter | Fixed | Hands free calling | 0.8 " | LED Screen | Bluetooth® | USB charging | Black

General information

Fed up with the car radio? You can enjoy your own playlists while driving with this Nedis® Bluetooth® 5.0 FM transmitter. With this device you can play music from smartphones or tablets through your car radio.

The innovative Bass Boost functionality delivers a deeper bass with the touch of the button. The built-in microphone enables hands-free calling for safe driving and the LED let's you see all the information you need easily. The voice assistant activation function enables hands-free calling for safe driving and the LED display helps you to see perfect.

But this transmitter is smarter than that: it can also charge your device with its 2.4 A USB connection which enables devices to charge faster at higher voltages. The second 1 A connection lets you connect another device to play your own music.

Features

- Connects to any Bluetooth® device - to wirelessly connect to your car radio
- Bluetooth® 5.0 - for less interruption and faster speeds
- Bass Boost function - to deliver a deeper bass when needed
- Voice assistant activation - for safer driving you can control your device with your voice
