

Wireless Microphone Set | 20 Channels | 1 Microphone | Cardioid | 70 Hz - 13 kHz | 1000 Ohm | -95 dB | Volume

General information

This Nedis® wireless microphone connects to almost every music system or device. The unique, small, and portable transmitter with a 6.35 mm connector make this microphone compatible with a broad range of musical systems and sound equipment. Connect it to a pair of PA speakers, amplifiers, audio receivers, mixers, DJ equipment, karaoke machines, or anything else with a 6.35 mm input.

Connect it to a pair of PA speakers, amplifiers, audio receivers, mixers, DJ equipment, karaoke machines, or anything else with a 6.35 mm input.

Maximum battery playtime of up to 10 hours, the compact design, and the fact that the microphone is wireless make it ideal for traveling. Take the microphone with you wherever you go, from a living room, a karaoke party to professional stage performances or DJ studio recordings. Enjoy distortion-free audio thanks to the 20 available frequency channels and an extended wireless range up to 50 m. The LCD-display and the control buttons on the side make it very easy to use and control. Adjust the channel, turn up the volume, or start a recording with the touch of a button.

The shock protection silicone cover on the bottom of the microphone keeps it more secure from bumps and falling. When putting down the mic, be assured that it stays in place and doesn't fall off the table/desk with the anti-roll ring.

Features

- Wireless system - for operating without cables
- Clear sound quality - the professional dynamic capsule produces a faithful, pure and full sound
