Nedis.com

Advanced Bluetooth audio receiver to stream music wirelessly to an audio system. An aptX chipset and optical output guarantee superior quality sound. In addition, the NFC EasyLink makes it simple to connect an NFC enabled smartphone or tablet.

Features

- Integrated NFC to easily pair your smartphone or tablet
- Single touch pairing with most Android™ smartphones thanks to the integrated Near Field Communication technology (NFC)
- aptX® chipset to deliver superior audio quality: deep bass, clear treble
- Extended memory technology to pair up to 8 devices
- TosLink output for digital sound quality
