Place yourself in control of your environment and automatically maintain a healthy, consistent atmosphere in your room with this self-adjusting humidifier.

This humidifier offers automatic humidity control, thanks to its hygrometer which can measure the moisture in the air and adjust its operations accordingly.

An LED screen reveals exactly the levels of humidity in the room and can be used to program your optimum settings. A 12-hour timer control allows you to set the humidifier to automatically switch off after a chosen time.

Features

- Monitor the atmosphere - with the humidifier's LED display of its in-built hygrometer's readings
- Automatically adjust your humidifier - to maintain a consistent environment
- Choose from a cool or warm mist
- Generous 5.5-litre tank - for uninterrupted use
- Purify the water - with warm mist settings and a ceramic filter
- Automatically stops - when the timer is set, the tank is empty or the tank is removed
