Place yourself in control of your environment and automatically maintain a healthy, consistent atmosphere in your room with this self-adjusting, humidifier with ionisator.

This humidifier offers automatic humidity control, thanks to its hygrometer which can measure the moisture in the air and adjust its operations accordingly.

A LED screen reveals exactly the levels of humidity in the room and can be used to program your optimum settings. A 12-hour timer control allows you to set the humidifier to automatically switch off after a chosen time.
