Carbon Monoxide Alarm

Battery Powered | Battery life up to: 1 year | With pause button | With test button | 85 dB | White

Brand: Nedis | Article number: DTCTCO20WT | Product EAN number: 5412810304653

Inner Carton EAN: | Outer Carton EAN:

This compact carbon monoxide detector is ideal for those who want the safety and security of an early warning system against this odourless, deadly gas - without having an obtrusive, bulky detector fitted in their room.

At only 45 x 80 mm it is 75% smaller than most other CO detectors and it can be fitted very discretely indeed. Yet, it contains a powerful sensor and an alarm that offers over 85 decibels of warning at the first detection of danger.

Simple to install, using the screws provided, the detector includes a lithium battery that offers many years of protection and the detector contains a test button for periodic checks, a low-power battery alert and an end-of-life warning.
