This charcoal starter puts an end to messing around with matches and lighter cubes: just plug in the starter and put the heating element in a bed of coals. While the heating element gets extremely hot and sets fire to the charcoal, you can grab yourself a drink and have a chat with your guests. The charcoal starter is a fast, safe and odourless solution to start up any barbecue.

Features

- Including stand to safely store the charcoal starter (also suitable to be mounted on a wall)
- Powerful 800-W heating element with a large surface
- No hassle with lighter cubes and matches
- Power cable of 1.5 metres, providing ample freedom of movement
