# Meat Thermometer

**Alarm / Timer | LCD Display | 0 - 250 °C | Black / Silver**

Brand: Nedis | Article number: KATH105BK | Product EAN number: 5412810311873

Inner Carton EAN: 5412810393299 | Outer Carton EAN: 5412810372041

Cooking big cuts of meat to perfection is going to be so easy with this meat thermometer, even for inexperienced home cooks.

Insert the probe into the dish and leave the display unit outside the oven, frying pan or barbecue. This way, you can read the internal temperature without having to take off the lid or open the oven door. In the meantime, you can focus on prepping your sides until the alarm warns you your roast has reached the temperature you set at the start.

The meat thermometer integrates a timer so you can also use it as an egg timer. The stainless steel probe is hygienically easy to clean and detachable for easy storage.

## Features

- Integrated magnet, kickstand and 1.0-m probe cable
- Detachable probe for easy storage
- Range of up to 250 °C
- Meat thermometer and egg timer in one
- Alarm when the set temperature is reached
- Stylish, clean high gloss black design
- Hygienic stainless steel probe
- Measuring units in Celsius or Fahrenheit
