Control many electrical appliances remotely simply by plugging them into this Wireless Smart Plug and connecting them to your smartphone or tablet via your Wi-Fi router. The handy power monitor allows you to see at a glance exactly how much power the appliance is using right now, or how much power it has been using over time.

Easy to set up

You don't need to be a technical genius or an electrician to control and automate your plugged-in appliances and devices. All you actually need is a Smart Plug and your Wi-Fi router. Our intuitive app will give you the ability to switch appliances on and off remotely and automatically. It can even work in connection with voice control systems such as Amazon Alexa or Google Home.

Schedule and pair
