This Nedis Wi-Fi smart fan heater can be used on its own or in combination with your other Nedis SmartLife devices.

Use the touch buttons on the front - or operate it remotely through the Nedis SmartLife app - to set the temperature, heating power, horizontal pan or set it on a timer or a schedule.

By combining the app with your favourite voice assistant (Google Home or Amazon Alexa) you can even control it using voice commands.

All of this is possible without the need of an additional hub or gateway.

Features

- Set the temperature with the buttons on the front, your Nedis® SmartLife app or by voice in combination with Google Home or Amazon Alexa
- Connects directly to your Wi-Fi so you can control it from anywhere in the world
- Simply set a timer or a schedule for automated heating
- The heater uses the full 1800 W to quickly heat up the room - and when approaching the target temperature it automatically lowers the heating power to 1000 W
