Inner Carton EAN: | Outer Carton EAN: 5412810382156

Nedis.com

Determine the optimal colour temperature and light intensity to suit each moment. Do you need bright, energising lighting close to daylight to stay focussed during late night study sessions? Or rather have a warm white glow to enhance a relaxed atmosphere during dinner? This Wi-Fi smart ceiling light provides the very right setting for every situation.

Control the light's brightness and colour temperature

Connect it up and you can now control the brightness using the Nedis SmartLife app on your smartphone or tablet, or with a simple voice command via Siri shortcuts, Amazon Alexa or Google Home.

Same goes for the colour temperature.

Features

- Option to dim the lights and change the colour temperature
- Minimalistic design with a sleek and slim aluminium bezel of less than 4 cm thick - blends in every interior
- Adjustable colour temperature - extra warm white (2700 K) to suit a relaxed atmosphere, to cool white (6500 K) if you need to concentrate
- Easy to control remotely or to automate - simply connect it directly to your Wi-Fi router without requiring an external hub
