Don't worry: if your notebook is irreparably damaged, but the hard disk is still working, you can still access all your valuable data.

Simply install your hard disk or SSD in this Nedis HDD enclosure and it becomes a compact external hard disk.

Now you can easily access your photos, music, movies and other digital files via any PC or notebook.

Features

- USB 3.1 - for high speed data transfer of up to 6 Gbps
- 2.5" SATA - provides a low-cost solution for reusing the HDD of a computer, e.g. after a HDD upgrade
- USB data connection - for easy access to files
- USB power connection - no external power adapter required
- Compact design: for maximum portability
- HDD enclosure: 2.5" SATA III - backwards compatible with SATA I and II
- Maximum thickness: 9.5 mm
