This gateway connects directly to your Wi-Fi, so no ethernet cable is required. Simply install it into your Nedis SmartLife application and you can connect up to 50 Nedis Zigbee products from a single gateway.

Each connected product will appear in the SmartLife application and can be included in automations as if it is directly connected to Wi-Fi.

Zigbee is an alternative protocol to Wi-Fi that offers a significantly lower power consumption. This enables small wireless sensors to remain functional up to multiple years on a single battery.

Features

- Plug-in design for maximum ease of use
- Connect up to 50 Zigbee products to a single gateway
- Zigbee supports instant communication with minimal battery usage
- Integrate this gateway into the SmartLife app to combine Nedis® Zigbee products to any SmartLife product
