With this smart pet food dispenser, you can program exactly at what time of the day a certain amount of food will be released (in portions of approx. 20 ml). Besides this you also have the option to manually feed your pets remotely using the app on your smartphone.

You are now in full control of the times and exact portion sizes of your pets.

No more delayed meals for your cat or dog when you come home late and you no longer need to ask your neighbors to feed your pets when you go away for the weekend.

Features

- Automatically feed your pets set quantities on set times
- Remotely feed your pets the preferred amount
- Set portion sizes in steps of approx. 20 ml
- Receive push notifications on your phone when food container is about to run empty
- Sensor confirms food was actually dispensed and sends push notification otherwise (jammed, tipped over, or empty)
- Option to connect power bank for back-up power
