# Door Window Sensor

**Zigbee 3.0 | Battery Powered | Android™ / IOS | White**

Brand: Nedis | Article number: ZBSD10WT | Product EAN number: 5412810329441

Inner Carton EAN: 5412810396139 | Outer Carton EAN: 5412810382453

This smart sensor will recognize whether your door or window is opened or closed and sends this information to your Nedis SmartLife application. To do this, a Nedis Zigbee gateway (WIFIZBxxx) is required.

This enables you to do many different things automatically, such as notifying you when someone is in your house or send you a reminder when a door or window is left open.

By combining this sensor with other products in the Nedis SmartLife application, you can trigger any additional Nedis SmartLife product on opening a door (e.g. light, smart plug or siren) or switch off a heater or air conditioner when the door is open.

## Features

- Detect whether a door or window is opened or closed wherever you want - within a range of approximately 30 m from the Nedis Zigbee gateway (WIFIZBxxx)
- Fully integrates with your Nedis SmartLife application (through the Nedis Zigbee gateway) to combine with other smart products in automations.
- Battery powered for flexible placement
- Battery lifetime of up to one year
- Zigbee devices need a Zigbee gateway (WIFIZBxxx) to work with the Nedis SmartLife app
