Nedis.com

Enjoy transmitting and receiving audio with this compact Nedis wireless Bluetooth® audio transmitter receiver with a Toslink input/output connection.

It supports SBC, aptX™ and aptX™ Low Latency Bluetooth® profiles so that it can easily connect with other Bluetooth® devices, such as headphones and audio systems.

You can seamlessly transmit audio without wires from your TV or wired audio system to your Bluetooth® headphones or speakers. In receiving mode you can stream audio from your smartphone, laptop or tablet to any audio system or speakers (using the Toslink connection). The AUX input/output port allows you to connect this device to another audio device.
