Ice Cube Maker

Ice output 12 kg | Capacity 1.6 L | White

Brand: Nedis | Article number: KAIC100FWT | EAN number: 5412810334339

Nedis.com

This Nedis® ice cube maker has a compact design but still a water capacity of 1.6 L to provide ice cubes for cold drinks whenever and wherever you need it.

Within only 8 minutes your ice cubes are ready for use. The maximum 'ice-making' capacity in 24 hours is 12 kg. When the basket is full, the ice cube maker has an indicator light that indicates if when the ice basket is full, but also if you need to add water will indicate this, and also if you have to add water.

This ice cube maker is very user friendly, first you put water in the reservoir then you turn the ice machine on, after it is on the machine will automatically pump the water into the water collector.
