Nedis.com

This coffee maker has a stylish black finished thermal jug with a capacity of 1 liter which makes it suitable for making 8 to 10 cups of coffee. The thermo jug with glass inside keeps freshly brewed coffee warm for up to three hours.

The coffee maker is very practical in use and has various features like a water tank with one side water gauge. Next to that the coffee maker is provided with a removable nylon filter which you can easily clean. This also means that the use of paper coffee filters is not necessary. It also has a detachable funnel and can be removed upwards and a anti-drip valve.
