Nedis.com

This SmartLife remote control gives you an extra option to operate our Nedis SmartLife bulbs quickly and easily, next to our SmartLife app or the voice control option. You can easily turn your smart bulbs on or off or adjust the brightness of the smart bulbs with a simple click. Thanks to its transmission range of up to 20 metres, you can control your smart bulbs from every corner of your home.

This Smart Remote Control can only be used with SmartLife bulbs which article code starts with WIFILR.

Features

- Plug & play: control your Nedis® smart bulbs (WIFILR...)
- Easily turn on and off either an individual smart bulb, or multiple smart bulbs at the same time
- Adjust the bulbs' brightness
- Possible to control all bulbs in the same room
- Transmission range of up to 20 metres
- Even operates if your Wi-Fi is not working for a while
