Binocular

Magnification: 10 x | Objective lens diameter: 60 mm | Field of view: 92 m | Travel bag included | Black

Brand: Nedis | Article number: SCBI5000BK | Product EAN number: 5412810348725

Inner Carton EAN: | Outer Carton EAN: 5412810396900

These big porro binoculars with 10 x 60 mm can be used for multiple application options like travelling, (nature) observations, hiking, sports or boating so that you can see everything sharply, brightly and with more depth than other binoculars. Big porro prism binoculars give you a much clearer 3D image than other binocular types along with a larger field of view of up to 92 meter at a 1000 meter distance.

The rubber grip on the housing makes sure you have a firm grip and offers good protection. The dioptic correction makes it possible to adapt the eye pieces to every eyesight. Due to the high eye relief value, this binocular is also suitable for spectacle wearers. The best view for this binocular is during day time, dusk and dawn.

Features

- (Big) porro prism binoculars - give more depth than other binoculars
- Multiple application options – for travelling, (nature) observations, climbing, hiking, concerts, (water) sports and boating thanks to the BK-7 clear blue coated lens
- Magnification – it zooms 10x to the object
- 60 mm objective lens diameter - so that it receives more (day)light than with smaller lens diameter binoculars
