Video Grabber

USB 2.0 | 480p | A/V Cable / Scart

Brand: Nedis | Article number: VGRRU101BK | Product EAN number: 5412810401048

Inner Carton EAN: 5412810401697 | Outer Carton EAN: 5412810401703

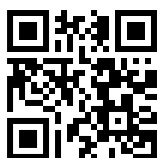

With the Nedis Video Grabber you can easily digitalize analog video recordings from a video recorder, analog camera or other equipment to your computer. The cables in this set enables the problem-free connection of old video recorders and camcorders. No drivers need to be installed to install the video grabber.

Ideal if you have old precious recordings that you don't want to lose and which you want to convert to a digital image format. With this converter you can connect a video tape, analog camera images or other image carriers to a USB 2.0 port, so that you can play the images and save them on your computer or hard drive. The supplied software is suitable for various Windows operating systems.

Features
