Dehumidifier

Dehumidification / Automatic / Dry laundry / Ventilation | 100 m³/h

Brand: Nedis | Article number: DEHU10WT | Product EAN number: 5412810405831

Inner Carton EAN: | Outer Carton EAN:

This Nedis dehumidifier is able to extract up to 10 litres* of moisture from the air per day. Therefore it's the best way to prevent the build-up of mold, moisture and mildew in your home. A relative humidity of 50-70% is recommended for daily living. There are situations which have a higher or lower humidity level, such as basements, bathrooms or poorly insulated rooms.

The dehumidifier is equipped with four different modes to ensure all user needs are met;

- Dehumidification, the adjustable hygostat keeps the room at a pre-set humidity level
- Automatic, the humidity level is automatically set at a comfortable 55%
- Dry laundry, continuous dehumidifying on the highest speed level to speed up the drying process of wet clothing
