SmartLife Motion Sensor

**Zigbee 3.0 | Battery Powered / USB Powered | Detector angle: 100 ° |
Detector range: 7 m | Max. battery life: 24 Months | White**

Brand: Nedis | Article number: ZBSM20WT | Product EAN number: 5412810408894

Inner Carton EAN: 5412810442904 | Outer Carton EAN: 5412810442898

This Nedis smart PIR (Passive Infrared) motion sensor will recognize physical movement up to a distance of approximately five metres, covering an angle of 120°. In addition, the brightness sensor measures the amount of light so automations can be set or adjusted based on the brightness in the room.

This information can be sent to your Nedis SmartLife application. To do this, a Nedis Zigbee gateway (WIFIZBxxx) is required.

This sensor can not only notify you when someone is in the room or when it is darker than a set level of light, but by combining it with other products in the Nedis SmartLife application, you can trigger any additional light, smart plug or siren.

Features

- Detect motion using the PIR (Passive Infrared) sensor wherever you want - within a range of approximately 30 m from the Nedis Zigbee gateway (WIFIZBxxx)
- Detect brightness to limit or adjust the automations based on the level of light in the room
- Fully integrates with your Nedis® SmartLife application (through the Nedis® Zigbee gateway) to combine with other smart products in automations
- Battery-powered for flexible placement
- Battery lifetime of up to one year
