Gaming Light

RGB | Battery Powered | Used for: Desktop / Notebook | Black

Brand: Nedis | Article number: GALDP110BK | Product EAN number: 5412810411238

Inner Carton EAN: 5412810412358 | Outer Carton EAN: 5412810412365

These Nedis 32 colourful lights will let you enjoy your games or music even more. There are multiple display modes available which enables you to create every atmosphere possible. The lights work on sound, which means the different motions of the lights go simultaneously on the beat of the music or other sounds. The high end microphone picks up sound, even if it's not loud.

The lights can be placed on your desk, in your car or even outside when you are having a party. Because of the built-in batteries, they can be easily installed almost everywhere.

Features

- Lighting for every mood with the multiple display modes
- The lights are sound controlled for a full experience for both the eyes and ears
- Duo pack with a total of 64 LEDs (2x 32)
- Built-in Lithium Polymer battery of 250 mAh
- Charging is easy via the USB-C™ port
