This Nedis Digital Double Air Fryer with a power of 2600 Watt has an extra large capacity of 8.4 litre, split by two separate cooking baskets of 4.2 litre each. Thanks to the technology that circulates hot air at high speed you get a very crispy result with no or minimal oil, making your food healthier and with a lower fat content. In addition, you can also bake, grill or roast.

Two baskets allow simultaneous preparation of two various foods with different cooking requirements. Prepare fries in one tray and vegetables or meat in the other, with both ready to serve at the same time. You can mix and set the cooking programs with different times and temperatures, which are ready at the same set time thanks to the Smart Finish function.
