Rechargeable Air Compressor

0.1 - 10.3 Bar | Dunlop Valve | Operation modes: Car / Motorbike / Bicycle / Ball | Yes | Air Pressure Meter

Brand: Nedis | Article number: PAAC10BK | Product EAN number: 5412810449651

Inner Carton EAN: 5412810451562 | Outer Carton EAN: 5412810451579

Discover the ultimate convenience with the Nedis Rechargeable Air Compressor. This cordless portable air pump eliminates the hassle of traditional air compressors, offering seamless operation for all your inflation needs. Versatile and efficient, it effortlessly fits the most common tyre valve types and is also ideal for inflating balls, swimming rings, and more.

Equipped with a clear Digital LED display and a built-in LED light, this compressor ensures precision and visibility, even in the dark. With a powerful inflation capacity of up to 10.3 bar (150 psi) and an impressive accuracy of 0.1 bar, it delivers reliable results every time.

Features

- This easy to use cordless and rechargeable air compressor provides hassle-free operation
- Fits the most common tyre valve types and is also suitable for balls and inflatable swimming rings
