The Nedis Digital Ultrasonic Jewellery Cleaner offers an effortless and effective way to restore shine to your jewellery and other small valuables. Using high-frequency sonic sound waves vibrating at 43 kHz, it reaches even the most inaccessible areas, loosening and removing stubborn dirt and grime.

The 600 ml tank is perfect for cleaning small items in one cycle. The intuitive LED display with a digital timer allows cleaning durations from 1.5 to 8 minutes, giving you control and flexibility depending on the level of dirt.

Designed for simplicity, the plug & play functionality ensures the cleaner is easy to set up and use right away—no installation or complicated settings needed.

Suitable for cleaning:
