# TV Simulator

**USB Powered | Indoor | Black**

Brand: Nedis | Article number: DUMSTV10BK | Product EAN number: 5412810293629

Inner Carton EAN: | Outer Carton EAN: 5412810379088

This TV simulator produces a light just like that of real television, so it can look like you are at home even when you aren't.

Its realistic effect can be automatically switched on by a timer that automatically recognises sunset.

When in use the simulator fills the room with bright lights in different shades and sequences, simulating a television, to deter burglars from breaking into your home.

With a low power consumption this simulator offers an eco-friendly but highly-effective alternative to other security options.

## Features

- Realistic TV effect – create the impression your sitting at home watching TV to deter burglars
- Simulates the changing light patterns from a 32 TV
- Creates different shades and sequences by 12 flashing red, blue, green and white LED lights
- Simple to set up - with plug and play operation
- Built-in timer - to switch on for four to seven hours after sunset (automatically detected)
- Can be powered via USB (cable included) or power adapter (not included)
