Nedis.com

This wireless smart siren is part of the ever-expanding SmartLife™ range that enables you to easily create a smart home using just your Wi-Fi router and connected devices.

This siren with flashing LEDs can be used as a doorbell or as an alert that motion has been detected from a motion sensor.

It offers eight different sounds that can be triggered according to time of day, time elapsed (as a timer), a sensor that has been triggered or many other scenarios.

It can be controlled with your smartphone, tablet or voice (using Amazon Alexa or Google Home).

With a sound intensity of over 85dB it can be configured to be loud enough to be heard over the top of a crowded room.
