Nedis.com

Use this smart LED strip to set the mood in any room. Control it in the Nedis SmartLife application, set schedules or automations or use your favourite voice assistants to control the brightness and colour of the LED strip. It connects directly to Wi-Fi, so no separate hub is required.

As this LED strip combines both RGB as well as warm and cool white LEDs, you can not only set any preferred colour, but also use it for warm to cool white indirect lighting

Its 5 metre length can be shortened or extended with similar LED strips for endless possibilities

The double sided adhesive (3M) is already placed for easy installation on any clean and flat surface.

Features

- Easy to set up - simply connect to your Wi-Fi to set, control and schedule this LED strip
- Control the brightness and colour (RGB) or you

  can select a hue from warm to cool white to perfectly match your mood
- The strip can be shortened or extended - for endless possibilities
- Double sided adhesive (3M) already placed - for easy installation
- Works as stand-alone smart light - or pair it with

  other SmartLife products to create an entire smart home
