Nedis.com

Capture that one special moment in glorious detail on camera. A video of a flock of deer running through the forest or a snap of that bear or wolf exploring.

Of course, you will need some help from mother nature and a little bit of luck, but when the moment occurs this Nedis wildlife camera will be ready to preserve the memory forever.

During the daytime and at night this camera will give you amazing wildlife pictures.

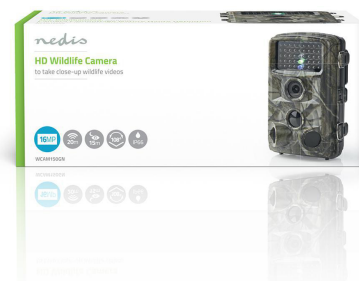

It activates and turns off automatically, ensuring your batteries last a very long time and that the camera can be on stand-by for months.

The consumer must comply with the applicable laws and regulations and be aware that these may impose restrictions on the creation and use of camera images.

Features

- The camera shoots pictures with a max. of 16 MP and Full HD video
- Black camera LEDs for a nearly invisible flash to ensure animals are not scared off
- During daytime animals can be photographed within a range of 20 metres
- In-built night view providing a range of 15 metres after sunset
- Also suitable for object surveillance
