Take the hard work out of achieving a perfect finish to your windows with this Nedis window vacuum cleaner with microfibre wiper.

Fill the bottle with your favourite detergent and spray directly on your window. With the integrated microfibre wiper you can give them a wash and the vacuum cleaner leaves them streak-free and clean. The water tank collects the dirty water so you don't have to carry around a heavy water bucket. Remove the tank to empty and clean it.

On each charge the window cleaner will last for between 25 and 30 minutes, which is plenty of time to get the windows of an average family home all sparkling.
