This easy to use smart indoor IP Camera can be simply connected to your existing Wi-Fi network to monitor your loved ones in your house and to record any sound or motion.

Recordings can be made continuously, scheduled or triggered by motion or sound.

Easily mount the camera against the wall, ceiling or shelf with the included mounting bracket and move the camera both horizontally and vertically using the free application on your phone or have it automatically follow any motion to never miss a thing.

Its friendly design makes this a welcome addition in anyone's room and the IR LED provides up to 10 metres night vision without any visible light required.
