Nedis.com

We all know the feeling of coming home into a cold room or apartment, or coming home to find out that you left the radiator on all day or night. With this Smart Radiator Control you never have to worry about if you left the radiator on.

Thermostat:

Simply replace your existing radiator knob with this Smart Radiator Control and the built-in self-learning thermostat opens and closes the radiator as far as needed to keep the room at the desired temperature.

Schedule and remote control:
