Blood Pressure Monitor Upper Arm

White

Brand: Nedis | Article number: HCBL400WT | Product EAN number: 5412810335510
Inner Carton EAN: | Outer Carton EAN: 5412810400492

Easily monitor your blood pressure with the fully automatic upper arm Blood Pressure Monitor from Nedis. This clinically tested blood pressure monitor is equipped with an extra-large display, on which you can effortlessly read your blood pressure and heart rate.

The measuring values are classified according to the WHO guidelines, using a colour scale. In addition, the blood pressure monitor is equipped with an arrhythmia indicator. The blood pressure monitor has 2x60 memory locations and is supplied with a cuff for an arm circumference of 22 to 42 cm.

Features

- The monitor has a large, easy-to-read LCD display
- WHO blood pressure indicator, using a colour scale
- Clinically tested
- 2 group*60 times with time and date stamp
- The monitor displays the average of all saved measured values and morning and evening blood pressure for the last 7 days
- The arrhythmia detection(IHB) analyses pulse frequency and detects irregular heartbeat during blood pressure measurement
- Automatic switch-off
- 60 memory locations
