Nedis.com

This Nedis Wall Patio Heater is extremely easy to install on your outside wall and contains golden tube elements with a maximum power of 2000 Watt, which heat any space up to 20 m².

The patio heater is very long-lasting because of its durable housing made of anodized extruded aluminum and can be used outdoors safely in every season, thanks to the isolation class of IP65.

With this heater, you will never get cold as it has 2 power settings with no less than 9 heat settings and a tiltable head to direct the heat to any spot on your terrace. You can easily control the heater with a remote for maximum convenience and safety.
