This Nedis contact grill allows you to prepare the perfect panini or toasted sandwich in a healthy way in no time. Especially due to 1500-Watt power, the grill reaches the desired temperature quickly. The contact grill has a large baking surface of 25.4 x 17.8 cm and is equipped with a floating hinge with which you can grill thicker food. These thicker products will not be flattened.

The contact grill has a fat drip tray for the fat that is released while grilling. Like this the fat will end up in this tray. Next to that, the grill has a non-stick coating which makes the use of oil or butter unnecessary, and it allows you to easily clean the grill after use.
