# Ceramic PTC Fan Heater

**1400 / 2000 W | 2 Heat Modes | Adjustable thermostat | Rotates automatically | Overheating protection | Fall over protection | Remote control | Timer**

Brand: Nedis | Article number: HTFA20WT | Product EAN number: 5412810405596

Inner Carton EAN: | Outer Carton EAN: 5412810405770

Nedis.com

This Nedis ceramic tower fan heater is ideal to heat the living room, workspace, children's or hobby room. The ceramic heating fan can create a pleasant warmth on cold days without any temperature fluctuations – thanks to two selectable heating levels of 1400 and 2000 Watt. Due to the thermostat, it will keep the room temperature at a stable level. The selectable oscillation function increases the fan heater's effective area so the warm air is widely distributed in the room. Its programmable shut-off timer can be set for one to eight hours.

All functionality and settings can be used and set via the digital control panel with LED display, as well as via the included remote control.
