Ceramic PTC Fan Heater

1000 / 1500 W | 2 Heat Modes | Adjustable thermostat | Rotates automatically | Overheating protection | Fall over protection

Brand: Nedis | Article number: HTFA21BK | Product EAN number: 5412810405602

Inner Carton EAN: | Outer Carton EAN:

Nedis.com

This Nedis ceramic fan heater is ideal to heat up the living room, workspace or bedroom. In addition to the heating function, the realistic flame effect creates a nice atmosphere. The ceramic heating fan can create a pleasant warmth on cold days without any temperature fluctuations – thanks to two selectable heating levels of 900 and 1500 Watt. Due to the thermostat, it will keep the room temperature at a stable level. The selectable oscillation function increases the fan heater's effective area so the warm air is widely distributed in the room.

Only want some extra atmosphere? The flame effect can also be used independently if no extra heat is needed.

Features

- Ceramic fan heater with realistic flame effect
- Energy-efficient PTC ceramic heating element
- Quick and agreeable warmth
- Ideal to heat a room of up to 15 m²
- 2 heat settings, 900/1500W, to meet different heat demands
- Thermostat, to keep the room temperature at a stable level
- Oscillation function to evenly spread the warm air
- Realistic flame effect, you hardly see the difference with real flames
- Safe to use thanks to the anti-tilt and overheating protection
