SmartLife Pulse Oximeter

Bluetooth® | OLED Display | Anti-movement interference / Auditory alarm / High precision sensor / Oxygen saturation (SpO2) / Perfusion index (PI) / Pulse rate (PR) | White

Brand: Nedis | Article number: BTHOX10WT | Product EAN number: 5412810418381

Inner Carton EAN: | Outer Carton EAN: 5412810418534

The Nedis Smart Pulse Oximeter measures blood oxygen (SpO2), pulse rate (PR) and pulse strength, also known as perfusion index (PI). It is a portable, easy-to-use device that uses a high precision sensor to ensure accurate, reliable readings.

Pulse Oximeter comes with an 8-second measurement with one touch of a button. The device will warn you if the blood oxygen is too low. It also gives a beep when pulse rate is too low or too high. The device can be used by anyone who wants to know more about their health, such as athletes and the elderly. You can use it when you quit smoking and even when you're a lung, asthma or heart patient. It is important that you keep a close eye on your health.
