The Nedis 65 W universal GaN notebook adapter is the perfect companion for your notebook or netbook. With this adapter a USB Type-C™ cable can be used to charge a laptop. The 90° angle avoids the bending of the cable and due to the small dimensions, the adapter is an ideal companion on the go.

The adapter is 100% compatible with the one that originally came with the notebook. Your laptop is always charged with the right amount of power thanks to the pre-defined Power Delivery profiles. The charger communicates with your laptop to select the most effective charging profile. This makes it possible to use the adapter also to charge a smartphone or tablet with USB-C connection.
