Alecto

Wireless connectable smoke detector 10 year 3-pack White

The Alecto SA61 smoke alarm can be connected to other smoke alarms wirelessly, creating extra fire safety. Your environment will be protected optimally, because if one alarm detects smoke or fire, all linked smoke alarms sound the alarm. This wirelessly connectable smoke alarm has a battery and optical sensor that both last for 10 years. The SA61 gives you the assurance of a safe environment for a decade. This smoke alarm has passed the highest European inspections and meets the relevant requirements.

Key features:

▪ Optimal alarm in case of smoke and fire thanks to the linked smoke alarms; if one smoke alarm goes off, the other alarms also go off

▪ Expandable up to 40 smoke alarms (type number SA61)
